

WANTED

(Dead, Not Alive)

FIELD

MORNING-GLORY/
HEDGE BINDWEED

(a.k.a. *Convolvulus arvensis/sepium*)

This weedy, seedy, desperado was last seen growing in Springfield

CRIMES COMMITTED:

- ◆ Costing a bundle for taxpayers to control
- ◆ Choking and the deliberate takeover of native plants
- ◆ Stealing land, homes, water, and food from wildlife
- ◆ Invading open lands, roadsides, waterways, and recreation areas
- ◆ Wreaking havoc and mayhem on unsuspecting ecosystems

DISTINGUISHING FEATURES:

- ◆ A trailing or climbing vine that scrambles like ivy
- ◆ Flowers are large and white (Hedge Bindweed) or small and rosy (Field Morning-glory)
- ◆ Blossoms are shaped like trumpets or funnels
- ◆ Leaves alternate and have blades shaped like arrowheads

CONTROL METHODS:

- ◆ Pull young plants, removing the root, and all plant material
- ◆ Smother plants with black plastic or mulch for several years
- ◆ Allow removed plant material to dry before composting

JOIN THE INVASIVE-WEED PATROL:

- ◆ Notify your neighbors when you spot this weed on their land
- ◆ Remove all weed seeds from clothing, shoes, pets, camping gear, and tires
- ◆ Report any sightings on public lands to your local land managers

REWARD

Healthy waterways and diverse ecosystems on your public lands
