### ***INDEPENDENT ACCOUNTANT'S REVIEW REPORT***

Board of Directors  
Regional Fiber Consortium  
225 Fifth Street  
Springfield, Oregon 97477

We have reviewed the accompanying business-type financial statements of the Regional Fiber Consortium (the Consortium), as of and for the years ended June 30, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the Consortium's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

#### ***Accountant's Responsibility***

Our responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

#### ***Accountant's Conclusion***

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information was not audited, reviewed, or compiled by us and we do not express an opinion, a conclusion, nor provide any assurance on it.

### ***Supplementary Information***

The accompanying supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The supplementary information has been subjected to the review procedures applied in our review of the basic financial statements. We are not aware of any material modifications that should be made to the supplementary information. We have not audited the supplementary information and do not express an opinion on such information.

# **Management's Discussion and Analysis**

This page intentionally left blank.

**Regional Fiber Consortium**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**June 30, 2020**

The Regional Fiber Consortium (Consortium) was established on August 1, 1999 through an intergovernmental agreement among a group of Oregon cities and counties and the agreement was subsequently amended as cities and counties joined or left the consortium. As of June 30, 2020, the current membership includes the Cities of Springfield, Lowell, Coburg, Westfir, Oakridge, Klamath Falls, Merrill, Bandon, Myrtle Point, Coquille, Coos Bay, North Bend, Reedsport, Roseburg, Sutherlin, Eugene, Florence, Cottage Grove, Drain, Yoncalla, Veneta, Creswell, Lane County, Coos County and Klamath County.

Our discussion and analysis of the financial performance of the Consortium provides an overview of the Consortium's financial activities for the fiscal year ended June 30, 2020. Please read it in conjunction with the Consortium's financial statements, which begin on Page 27.

**Mission**

The Consortium was formed for the purpose of taking control of and managing certain fiber optic cable transferred to the Consortium by a number of fiber providers in consideration of right-of-way user fees payable to the cities who are members of the Consortium. It is the intention of the Consortium to develop an appropriate level of communication services for the citizens of the member jurisdictions and to serve the public interest by stimulating economic development in the communities through which the fiber optic cable passes. In February of 2010, the Lane Council of Governments (LCOG) was awarded \$8.4 million in American Recovery and Reinvestment Act funding as part of the national broadband stimulus program sponsored by the National Telecommunications and Information Administration (NTIA). The Consortium played a key role in this stimulus program by providing the bulk of the required \$2.2 million match. That funding has been used to provide "middle mile" connectivity between the Consortium's fiber and local facilities of telecommunications providers, greatly simplifying the task of energizing the network. That project has been completed and over one-hundred anchor institutions have gained connectivity. In the Springfield area, the project financed the construction of fiber to the City's Operations and Emergency Management facility, as well as providing connectivity to the Volunteers in Medicine facility, the Homes for Good (previously HACSA) low income housing facility, and to the Walterville School. In the three counties served by the project, thirty-one medical facilities, including two hospitals, were connected, giving them access to the already connected McKenzie-Willamette and PeaceHealth hospitals. In addition, thirty-nine school buildings were connected in ten different school districts, twenty-six police and fire stations, ten libraries, and thirty-three government buildings, including nine city halls. The fiber constructed during the Broadband Technology Opportunities Program (BTOP) project has led to development of a call center in Veneta and expansion of a call center and other businesses in Cottage Grove.

## **Responsibility and Controls**

The Lane Council of Governments (LCOG) provides general staffing for the Consortium, including scheduling and staffing meetings, managing and negotiating the leases, and recordkeeping. The City of Springfield performs all financial administrative duties for the Consortium in accordance with the provisions of an intergovernmental agreement between the City of Springfield and Regional Fiber Consortium.

The Intergovernmental Agreement between the City of Springfield and the Consortium provides that the City of Springfield may charge a reasonable administrative fee for budgeting and administrative services. For the years ended June 30, 2020 and June 30, 2019, the cost of such services was \$12,000 for each year.

## **Financial Highlights**

- The Consortium's total assets at June 30, 2020 increased \$58,989 from \$385,380 to \$444,369, or 15.3% from the prior year. This increase in total assets was primarily due to an increase in cash and investments of \$100,444 and a decrease in accounts receivables of \$41,284.
- The Consortium's total liabilities decreased by \$18,066 from \$42,812 to \$24,746. This decrease was due to a decrease in accounts payable.
- The net position of the Consortium (assets less liabilities) at June 30, 2020 increased \$77,055 from \$342,568 to \$419,623, or 22.5% from the prior year.
- The Consortium's total operating revenues increased \$6,844 over the prior year from \$163,493 to \$170,337. This increase in revenue was due to increases in the fiber lease rates for some larger customers.
- The Consortium's total operating expenses decreased \$33,090 over the prior year from \$133,347 to \$100,257. This decrease was primarily due to a \$17,740 reduction in contractual service payments to Lane Council of Governments and that no connectivity grants were awarded in the current fiscal year. The \$17,740 reduction in contractual service payments to Lane Council of Governments was due to higher administration costs in the prior fiscal year related to the CenturyLink IRU lease negotiations, which are now essentially complete and a \$700 reduction in annual audit costs for the current fiscal year.

## Overview of Annual Financial Report

Management's Discussion and Analysis (MD&A) serves as an introduction to the basic financial statements and supplementary information. The MD&A represents management's examination and analysis of the Consortium's condition and performance.

The financial statements report information about the Consortium using the accrual basis of accounting. As such, revenues are recognized when they are earned and expenses are recognized when they are incurred.

The financial statements include a comparative statement of net position, a comparative statement of revenues, expenses, and changes in net position and a comparative statement of cash flows. The statement of net position presents the financial position on a full accrual basis and provides information about the nature and amount of resources and obligations at year-end; the statement of revenues, expenses, and changes in net position presents the results of the business activities over the course of the fiscal year and information as to how the net position changed during the year; the statement of cash flows presents the increases and/or decreases to cash during the fiscal year from operating activities and investing activities.

The financial statements were prepared by the City of Springfield's staff from the detailed books and records of the Consortium. The financial statements were reviewed by independent accountants as required by the State of Oregon.

## Financial Analysis

The Consortium's overall financial position increased in fiscal year 2020 as compared to 2019. While revenues increased relating to annual fiber lease increases, expenditures decreased due to the Consortium not issuing connectivity grant awards during the current fiscal year, and a decrease in payments to Lane Council of Governments for contractual services, (as the prior fiscal year saw higher costs, in part, due to the additional time spent negotiating renewed leases with CenturyLink).

### Regional Fiber Consortium Net Position

	June 30,		
	2020	2019	2018
Current assets	\$ 444,369	\$ 385,380	\$ 317,097
Current liabilities	24,746	42,812	11,992
Net position:			
Unrestricted	\$ 419,623	\$ 342,568	\$ 305,105

As of June 30, 2020, unrestricted net position was \$419,623, an increase of \$77,055 (22.5%) from the prior year, as compared to an unrestricted net position of \$342,568 as of June 30, 2019, and an increase of \$37,463 (12.3%) from fiscal year 2018. The increase in 2020 can be primarily attributed to the increase in cash and investments, and a decrease in accounts receivables as explained earlier.

### **Regional Fiber Consortium Change in Net Position**

	Year Ended June 30,		
	2020	2019	2018
Operating revenues	\$ 170,337	\$ 163,493	\$ 166,274
Operating expenses	100,257	133,347	84,136
Operating income (loss)	70,080	30,146	82,138
Non-operating revenues	6,975	7,317	2,868
Change in net position	77,055	37,463	85,006
Net position, beginning of year	342,568	305,105	220,099
Net position, end of year	<u>\$ 419,623</u>	<u>\$ 342,568</u>	<u>\$ 305,105</u>

Overall, lease revenues increased by \$6,844 or 4.2% from fiscal 2019 to 2020 as compared to an increase of \$5,469 or 3.5% from fiscal 2018 to 2019. Both years experienced modest increases resulting from increases to the fiber lease rates for larger customers. In 2020, Consortium expenses were \$100,257 as compared to \$133,347 in 2019 and \$84,136 in 2018. In 2020 there was a significant decrease in contractual services as there were no connectivity grants awarded and the active CenturyLink negotiations were essentially complete. In 2019 there was a significant increase in contractual services due to an increase in operations staffing time spent on Consortium activities, due largely to the negotiations with CenturyLink, an increase in travel and meeting expenses, and the issuance of a small connectivity grant.

### **Budgetary Highlights**

The original budget was not amended in 2020. The differences between the original budget and the actual budget basis revenues and expenditures can be summarized as follows:

- Revenues were over budget by \$4,013 (2.6%).

- Expenditures were under budget by \$31,393 (23.8%).

### **Economic Factors and Next Year's Budget and Rates**

As explained above, the Consortium was formed for the purpose of taking control of and managing certain fiber optic cable transferred to the Consortium by a number of fiber providers, including Level 3 Communications and Williams Communications, in consideration of right-of-way user fees payable to the cities who are members of the Consortium. Both Level 3 and Williams have since been purchased or absorbed by CenturyLink, and the relevant 20-year leases that the Consortium has with CenturyLink are set to expire the end of 2020, or early 2021. Accordingly, Consortium staff has been negotiating with CenturyLink to renew those leases for an additional 20 years. Fortunately, the negotiations are essentially complete, and the Consortium will continue to have use of the fiber for an additional 20 years. That said, the renewal will likely increase expenditures to include some form of payment to CenturyLink for the use of the fiber. The payment is anticipated to be small, however, and with a concurrent increase in Consortium rates for sublessees of the fiber, there will not be a major negative financial impact to the Consortium.

The Consortium may be able to offset the increase in expenditures in several ways. In fiscal year 2015, the Consortium started an annual grant program to provide members with funds to improve broadband services in their communities. If necessary, this grant program can be terminated or suspended, or the Consortium could reduce the frequency of grant expenditures. It was decided that the fiscal year 2020-2021 budget could allow for a \$50,000 budget for grants, and the decision was unanimously approved. Further, Consortium staff will be renegotiating subleases with ISPs following now that active negotiations with CenturyLink are essentially complete. The rates of those subleases will be increased to compensate for the anticipated new expenditure to CenturyLink under the new indefensible rights of use (IRUs). Both expenditures and revenues are anticipated to increase, and the previous general health of the Consortium budget following completion of negotiations with CenturyLink will be maintained.

The Consortium will pay the City of Springfield \$12,000 for administrative services in the coming year.

### **Requests for Information**

This financial report is designed to provide our citizens and taxpayers with a general overview of the finances for those funds maintained by the Regional Fiber Consortium and to show the Consortium's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Springfield, Accounting Manager, 225 Fifth Street, Springfield, Oregon 97477.

The independent accountant's review report and accompanying notes are an integral part of these statements.

Regional Fiber Consortium  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2020 and 2019

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Regional Fiber Consortium (Consortium) was established on August 1, 1999 through an intergovernmental agreement among a group of Oregon cities and counties and the agreement was subsequently amended as cities and counties joined or left the Consortium. The Consortium was initially formed for the purpose of taking control of and managing certain fiber optic cable transferred to the Consortium in the form of a 20-year indefeasible right of use (IRU) by Pacific Fiber Link, LLC, in exchange for a waiver of payment for the right of way use fees that Pacific Fiber Link, LLC would otherwise owe to the cities that were members of the Regional Fiber Consortium. Pacific Fiber Link, LLC later became known as 360° Networks, and was subsequently, acquired by Zayo Group, LLC. Another Consortium, Fiber South Consortium, was later formed for a similar arrangement with Williams Communications, Inc. and Level 3 Communications, LLC. The two Consortia were ultimately consolidated into what is now known as the Regional Fiber Consortium. As of June 30, 2020, the current membership includes the Cities of Springfield, Lowell, Coburg, Westfir, Oakridge, Klamath Falls, Merrill, Bandon, Myrtle Point, Coquille, Coos Bay, North Bend, Reedsport, Roseburg, Sutherlin, Eugene, Florence, Cottage Grove, Drain, Yoncalla, Veneta, Creswell, Lane County, Coos County and Klamath County.

It is the purpose of the Consortium to develop an appropriate level of communication services to citizens of the member jurisdictions to serve the public interest by stimulating economic development in the communities through which the fiber optic cable passes.

The financial operations of the Consortium are reported using enterprise fund accounting. It is the intent of the Consortium that the costs of providing fiber access to users on a continuing basis will be financed or recovered primarily through an equitable fee levied on all users.

The City of Springfield performs all administrative duties for the Consortium in accordance with the provisions of an intergovernmental agreement between the City of Springfield and the Regional Fiber Consortium.

1. Reporting Entity

The Regional Fiber Consortium, under the criteria established by GASB, is considered a primary government and is not a component unit of another entity nor is there any component units for which the Consortium is financially accountable.

2. Basis of Accounting

The financial operations of the Regional Fiber Consortium are accounted for using the full accrual basis of accounting. As such, revenues are recognized when they are earned and expenses are recognized when they are incurred.

All activities of the Consortium are accounted for within a single proprietary (enterprise) fund. Proprietary funds are used to account for operations that are (a) financed and operated in a manner similar to a private business enterprise where the intent of the governing body is that the cost (expenses,

## NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The accounting and financial reporting treatment applied to the Consortium is determined by its measurement focus. The transactions of the Consortium are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations are included on the statement of net position. Net position (i.e., total assets net of total liabilities) is segregated into two categories: restricted and unrestricted. Currently there is no restricted net position.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the balance sheet date, and reported amounts of revenues and expenses during the reporting period. Actual results may differ from such estimates.

### 3. Budgetary Accounting

The Consortium adopts an annual budget. The budget is adopted on the modified accrual basis of accounting. All unexpended and unencumbered appropriations in the budget remaining at the end of the fiscal year, lapse. During the year, management is authorized to transfer budgeted amounts between line items within the operating budget.

### 4. Cash and Investments

The Consortium participates in a cash and investment pool maintained by the City of Springfield for all funds under the City's administrative control. The amount reported as cash and investments is the Consortium share of the total City of Springfield cash and investment pool. The Consortium does not maintain bank accounts or investments separate from the City's investment pool. The bank deposits are collateralized pursuant to Oregon Revised Statutes, Chapter 295. The investment in the Oregon State Treasurer's Investment Pool is not required to be categorized by level of risk because this investment is not evidenced by securities.

State statutes authorize the City to invest in obligations of the U. S. Treasury and its agencies, bankers' acceptances, high grade commercial paper, the State of Oregon Local Government Investment Pool and repurchase agreements. Investments are stated at fair value.

For purpose of the statement of cash flows, cash and investments in the City-wide investment pool (including restricted cash and investments) are considered cash and cash equivalents. The pool has the general characteristics of a demand deposit account for the Consortium in that the Consortium may deposit additional cash at any time and may withdraw cash at any time without prior notice or penalty.

## NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

### 5. Accounts Receivable

Accounts receivable consist of lease payments receivable of \$74,024 and \$115,308, respectively, as of June 30, 2020 and June 30, 2019. No allowance for doubtful accounts is considered necessary.

### 6. Risk Management

The Consortium is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets. The Consortium carries commercial insurance for such risks of loss. There have been no claims resulting from these risks.

## NOTE B – INTERGOVERNMENTAL AGREEMENTS

The Intergovernmental Agreement between the City of Springfield and the Consortium provides that the City of Springfield may charge a reasonable administrative fee for budgeting and accounting services. For the years ended June 30, 2020 and June 30, 2019, the cost of such services was \$12,000 per year.

**Management Representation of Fiscal Affairs  
Required by Oregon Regulation  
For the Year Ended June 30, 2020**

The Regional Fiber Consortium (the Consortium) is subject to, and responsible for, compliance with various laws, rules, and regulations relating to its operations and finances. Among such laws, rules, and regulations are the requirements prescribed in Municipal Audit Law (ORS Chapter 297) and the Minimum Standards for Review of Oregon Municipal Corporations (OAR 162, Division 40) including, but not limited to:

- § **Deposit of public funds with financial institutions (ORS Chapter 295).**
- § **Indebtedness limitations, restrictions and repayment.**
- § **Budgets legally required (ORS Chapter 294).**
- § **Insurance and fidelity bonds in force or required by law.**
- § **Programs funded from outside sources.**
- § **Authorized investment of surplus funds (ORS Chapter 294).**
- § **Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).**

The management of the Consortium is aware of the requirements of Oregon laws and administrative rules concerning each of the above requirements and has complied, in all material respects, with such requirements. Further, we are not aware of any violations or possible violations of laws, rules, or regulations, whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency.

Nathan Bell, Finance Director
