

ENGINEERING DESIGN STANDARDS AND PROCEDURES MANUAL

TABLE OF CONTENTS

INTRODUCTION

xvii

SECTION I – DESIGN STANDARDS

1.00	STREETS AND SIDEWALKS	1-1
1.01	PURPOSE	1-1
1.02	DESIGN STANDARDS - GENERAL	1-1
1.02.1	Basic Geometry	1-1
1.02.2	Design Speed	1-1
1.02.3	Right-of-Way and Street Width	1-2
1.02.4	Vertical Alignment	1-2
1.02.5	Horizontal Alignment and Super-elevation	1-2
1.02.6	Maximum Street Grades	1-3
1.02.7	Pavement Design	1-3
	1.02.7.1 Flexible Pavement Design	1-4
	1.02.7.2 Rigid Pavement Design	1-6
1.02.8	Curbs and Gutters	1-8
1.02.9	Valley Gutters	1-8
1.02.10	Cross Slope	1-8
1.02.11	Sidewalks	1-9
1.02.12	Pedestrian Access Ramps	1-9
1.02.13	Driveway Approaches	1-10
1.02.14	Curb Return Radii	1-11
1.02.15	Private Improvements	1-11
1.02.16	Glenwood Riverfront Street Cross-Section Standards	1-11
2.00	SANITARY SEWERS AND PUMP STATIONS	2-1
2.01	PURPOSE	2-1
2.02	GENERAL DESIGN CONSIDERATIONS	2-1
2.02.1	Off-Site Flows	2-1
2.02.2	Sewer Study	2-1
	2.02.2.A Sanitary Sewer System Capacity	2-2
	2.02.2.A-1 Flow Rates for New Development	2-2
	2.02.2.B Peak Flow Factor	2-4
	2.02.2.C Infiltration / Inflow	2-5

2.02.3	Sewer Alignment	2-5
2.02.4	Cover	2-5
2.02.5	Watertight Joints	2-6
2.02.6	Manhole Placement	2-6
2.02.7	Manhole Channel Design	2-6
2.02.8	Sewers in Streets and Easements	2-7
2.02.9	Anchor Blocks	2-7
2.02.10	Minimum Pipe Size	2-7
2.02.11	Minimum Slope	2-8
2.02.12	Manning's 'n' Value	2-9
2.02.13	Watertight Manhole Covers	2-9
	2.02.13.A Ventilation	2-9
2.02.14	Manhole Taps and Inverts	2-9
2.02.15	Manhole Drop Structures	2-9
2.02.16	Drop Across the Structure	2-9
2.02.17	Cleanouts	2-9
2.02.18	Service Laterals	2-10
2.02.19	DEQ and OSHD Rules Regarding Water Lines	2-10
2.02.20	Stream Crossing	2-10
2.02.21	Inverted Siphons	2-11
2.02.22	Trenchless Technologies	2-11
2.02.23	Side Sewer Repairs	2-14
2.02.24	Manhole Rehabilitation	2-15
2.02.25	Service Lines	2-15
2.03	PUMP STATIONS	2-15
2.03.1	Location and Site Selection	2-15
2.03.2	Flood Protection	2-16
2.03.3	Access for Maintenance Vehicles	2-16
2.03.4	Fire Protection	2-16
2.03.5	Site Piping Layout	2-16
2.03.6	Other Site Design Factors	2-16
2.03.7	Design Flow Rates	2-17
2.03.8	System Hydraulics	2-17
2.03.9	Number of Pumps	2-17
2.03.10	Pump Selection	2-10
2.03.11	Wet-wells	2-18
2.03.12	Grit, Grease and Clogging Protection	2-19
2.03.13	Flow Measurement	2-19
2.03.14	Surge Analysis - General	2-19
	2.03.14.A Surge Modeling	2-20
	2.03.14.B Surge Protection Facilities	2-20
2.03.15	Odor and Noise Control	2-20
2.03.16	Odor Prevention	2-21
2.03.17	Noise Control	2-21
2.03.18	Operations and Maintenance	2-21
2.03.19	Reliability	2-22

	2.03.19.A	Equipment Redundancy	2-22
	2.03.19.B	Emergency Power	2-22
	2.03.19.B-1	Portable Engine Generators	2-23
	2.03.19.B-2	Permanent Engine Generators	2-23
	2.03.19.B-3	Fuel Storage	2-23
	2.03.19.B-4	Secondary Power Grid	2-23
	2.03.20	Bypass Capacity	2-24
	2.03.21	Overflow Storage Capability	2-24
	2.03.22	Alarms and Telemetry	2-24
2.04	SPECIAL DESIGN DETAILS - GENERAL		2-25
	2.04.1	Electrical Design	2-25
		2.01.1.A Instrumentation	2-25
		2.04.1.B Alarms	2-25
		2.04.1.C Lighting	2-25
	2.01.2	Water Supply	2-25
	2.04.3	Corrosion Control	2-26
	2.04.4	Temperature and Ventilation	2-26
	2.04.5	Equipment Removal and Replacement	2-26
	2.04.6	Accessibility	2-26
	2.04.7	Valves and Piping	2-26
	2.04.8	Wet-well/Drywell Pump Stations	2-27
	2.04.9	Suction Lift Pump Stations	2-27
	2.04.10	Submersible Pump Stations	2-27
	2.04.11	Vertical Solids Handling Line Shaft Pumps	2-28
2.05	FORCE MAINS		2-28
	2.05.1	Size	2-28
	2.05.2	Velocity	2-28
	2.05.3	Air Relief Valve	2-28
	2.05.4	Blow-Offs	2-28
	2.05.5	Termination	2-28
	2.05.6	Construction Materials	2-28
	2.05.7	Pressure Tests	2-29
	2.05.8	Connections	2-29
	2.05.9	Surge Control	2-29
	2.05.10	Thrust Restraint	2-29
	2.05.11	Pig Launch/Retrieval Facilities	2-29

3.00	STORMWATER QUALITY	3-1
-------------	---------------------------	------------

3.01	STORMWATER QUALITY DESIGN STANDARDS		3-1
3.02	STORMWATER QUALITY DESIGN CRITERIA		3-1
	3.02.1	Stormwater Quality Design Storm	3-1
	3.02.2	Retention/Protection/Preference for Open Watercourses and Water Bodies	3-2

3.02.3	Water Quality Pollutants of Concern	3-2
3.02.3.A	Temperature Standards	3-2
3.02.3.B	Bacteria and Mercury Standards	3-3
3.02.3.C	Total Suspended Solids (TSS) Standard	3-3
3.02.3.D	DEQ Stormwater Discharge Benchmarks	3-3
3.02.4	Special Considerations for Higher Risk Activities	3-3
3.02.4.A	Eugene Stormwater Management Manual, Chapter 4	3-3
3.02.4.B	Underground Injection Control (UIC)	3-4
3.02.4.C	Roof-mounted Equipment	3-5
3.02.4.D	Drinking Water Protection (DWP) Overlay District	3-5
3.02.5	Parking Lots/Paved Areas	3-5
3.02.6	Vegetative Treatment Requirements	3-5
3.02.7	Parking Lot Maintenance	3-6
3.03	PRIVATE STORMWATER MAINTENANCE REQUIREMENTS	3-6
3.03.1	Operations and Maintenance Plan (O&M Plan) Submittal for Privately Maintained Facilities	3-6
3.03.2	Specific Requirements of the O & M Plan	3-8
4.00	STORMWATER CAPACITY	4-1
4.01	PURPOSE	4-1
4.02	GENERAL DESIGN CONSIDERATIONS	4-1
4.03	ACCOUNTABILITY FOR DRAINAGE DESIGN	4-2
4.03.1	Stormwater Study	4-2
4.03.2	Stormwater Study Types	4-4
4.03.3	Hydrologic Calculations	4-5
4.03.4	Hydraulic Calculations	4-6
4.03.5	Design of Conveyance	4-7
4.04	DESIGN FOR STORM SYSTEMS	4-8
4.05	CATCH BASIN/INLET DESIGN	4-11
4.06	AREA DRAINS AND DITCH INLETS	4-12
4.07	CONSTRUCTION CHANNELS	4-12
4.07.01	Roadside Ditches	4-13
4.08	OUTFALLS	4-13
4.09	DOWNSTREAM PROTECTION REQUIREMENTS	4-14
4.10	CRITERIA FOR REQUIRING ON-SITE DETENTION	4-14

4.10.1	On-Site Detention Design Criteria	4-15
4.11	IMPERVIOUS AREA USED IN DESIGN	4-15
4.12	DETENTION POND DESIGN	4-15
4.13	USE OF PARKING LOTS FOR DETENTION	4-17
4.14	USE OF ROOFS FOR DETENTION	4-17
4.15	UNDERGROUND DETENTION FACILITIES	4-18
4.15.1	Detention Tanks	4-18
4.15.2	Detention Vaults	4-19
4.16	INFILTRATION FACILITIES	4-20
4.16.1	Overview	4-20
4.16.2	Underground Injection Control	4-21
4.16.3	Surface Infiltration Facility Requirements	4-21
4.17	LOW IMPACT DEVELOPMENT	4-22
4.17.1	Requirements for Low Impact Development Approach Areas	4-23

5.00	TRAFFIC STANDARDS	5-1
-------------	--------------------------	------------

5.01	PURPOSE	5-1
5.02	GENERAL DESIGN CONSIDERATIONS	5-1
5.02.1	Illumination	5-1
5.02.1.A	General	5-1
5.02.1.B	Design Standards	5-1
5.02.1.C	Street Light Spacing	5-4
5.02.1.D	Conduit Size	5-6
5.02.1.E	Conductor Size	5-6
5.02.2	Signals	5-7
5.02.2.A	General	5-7
5.02.2.B	Signal Design Standards	5-7
5.02.2.C	Induction Loops	5-8
5.02.2.D	Conduit	5-8
5.02.2.E	Junction Boxes	5-8
5.02.2.F	Power Source	5-8
5.03	BICYCLE FACILITIES	5-8
5.03.1	General	5-8
5.03.2	Design Standards	5-8
5.03.3	Bike Lanes	5-9
5.03.4	Bicycle Parking	5-9

5.03.5	Multi-Use Paths	5-9
5.03.6	Striping and Signing	5-10
5.03.7	Protected Bikeways	5-10
5.03.8	Other Bicycle Facilities	5-10
5.04	INTERSECTION CONTROL	5-10
5.04.1	Roundabouts	5-10
5.05	MEDIANS	5-10
5.05.1	General	5-10
5.05.2	Median Location Criteria	5-11
5.05.3	Design Standards	5-11
5.03.3.A	Length of Median	5-11
5.03.3.B	Median Width	5-11
5.03.3.C	Median Openings	5-12
5.03.3.D	Median Types	5-12
5.03.3.E	Visibility	5-12
5.03.3.F	Access to Required Fire Features	5-12
5.06	ROADSIDE FEATURES	5-12
5.06.1	General	5-12
5.06.2	Design Standards	5-12
5.06.3	Mailboxes	5-12
5.06.4	Roadside Traffic Barriers	5-13
5.06.5	Signing	5-13
5.07	MISCELLANEOUS	5-13
5.07.1	Turn Bay Lengths	5-13
5.07.2	Sight Distance	5-14
5.07.3	Bus Turnout	5-15
5.07.4	Bus Stop Locations	5-16
5.07.5	Bus Stop and Shelter Layout	5-19
5.08	PARKING LOT DESIGN	5-19
5.09	ON STREET PARKING	5-19
6.00	LANDSCAPE VEGETATION	6-1
6.01	PURPOSE	6-1
6.02	GENERAL DESIGN CONSIDERATIONS	6-1
6.02.1	Existing Trees and Native Vegetation	6-7
6.02.2	New Street Trees and Right-of-Way Vegetation	6-8
6.02.3	Acceptable Street Trees and Vegetation Lists	6-9
6.02.4	Street Tree Size	6-10

6.02.5	Street Tree Location	6-10
6.02.6	Tree Planting Procedures and Establishment	6-10
6.02.7	Noxious Vegetation and Maintaining the Use	6-11

7.00	HILLSIDE DEVELOPMENT	7-1
-------------	-----------------------------	------------

7.01	PURPOSE	7-1
7.02	WATER SUPPLY AND DISTRIBUTION	7-1
7.03	SANITARY SEWER	7-1
7.03.1	Local Phasing	7-1
7.03.2	Hillside Plan Submittals	7-1
7.03.3	Geotechnical Engineering Representative	7-2
7.03.4	Springfield Development Code	7-2
7.03.5	Public vs. Private Sanitary sewer	7-2
7.03.6	Sewer Extensions	7-2
7.03.7	Sewer Boundary Mapping	7-2
7.03.8	Sewer Pump Stations	7-2
7.03.9	Hillside Design Considerations	7-2
7.03.10	Intercepted Groundwater Flow	7-3
7.03.11	Curved Sewers	7-3
7.04	STORM DRAINAGE	7-3
7.04.1	Springfield Development Code	7-3
7.04.2	Storm Sewer Laterals	7-3
7.04.3	Publicly Maintained Facilities	7-3
7.04.4	Storm Sewer Extensions	7-3
7.04.5	Site Drainage Analysis	7-3
7.04.6	Hillside Design Considerations	7-3
7.01.7	Trench Drainage Control	7-4
7.04.8	Curved Storm Sewer	7-4
7.04.9	Drainage Impact to Wetlands	7-4
7.04.10	Hillside Pavement Distress Study	7-4
7.04.11	Catch Basin Design	7-4
7.04.12	Drainage Approval	7-4
7.04.13	Water Flow at Curb Cuts	7-4
7.04.14	Agreement Responsibilities	7-4
7.04.15	Water Quality Best Management Practices	7-4
7.04.16	Maintenance Vehicle Access	7-5
7.04.17	Stormwater Discharge Restrictions	7-5
7.04.18	Drainage Benches and Private Storm Systems	7-5
7.05	TRANSPORTATION	7-5
7.05.1	Temporary Dead End Streets	7-5
7.05.2	Right-of-Way Dedications	7-5

7.05.3	Slope Easements	7-5
7.05.4	Local Street Right-of-Way	7-6
7.05.5	Field Measured Cross Sections	7-6
7.05.6	Details and Typical Cross Sections	7-6
7.05.7	Secondary Access	7-6
7.05.8	Geometry	7-6
	7.05.8.A Basic Geometry	7-6
	7.05.8.B Combination Vertical and Horizontal Curves	7-6
7.06	GROUNDWATER CONTROL	7-6
7.06.1	Embankment Restrictions	7-6
7.06.2	Persistent Flow Conditions	7-6
7.06.3	Longitudinal Drainage Systems	7-7
7.06.4	Interception of Springs and Watercourses	7-7
7.07	TREE AND UNDERSTORY PRESERVATION	7-7
7.07.1	Tree and Understory Removal	7-7
7.07.2	Analysis of Urban Forester	7-7
7.07.3	Forestry Consultant	7-7
7.07.4	Retainage of Trees	7-8
7.07.5	Oregon White Oaks	7-8
8.00	EROSION AND SEDIMENT CONTROL PLAN DESIGN	8-1
8.01	PURPOSE	8-1
8.02	ENGINEERING RESPONSIBILITIES	8-1
8.03	ESCP PREPARATION	8-2
8.03.1	Data Collection	8-2
	8.03.1.A Soil Types	8-3
	8.03.1.B Precipitation Data	8-3
8.03.2	Prevention vs. Sediment Control	8-4
8.03.3	Assessing the Project Site	8-4
8.03.4	Five Basic Rules	8-5
8.03.5	Project Scheduling	8-6
8.04	ESCP – DETERMINE APPLICABLE DESIGN ELEMENTS	8-6
8.04.1	Clearing Limits	8-7
8.04.2	Sensitive Area Restrictions	8-7
8.04.3	Surface Water Control	8-8
8.04.4	Perimeter Protection	8-9
8.04.5	Sediment Retention	8-10
8.04.6	Cover Measures	8-10
8.04.7	Inlet Protection	8-11
8.04.8	Traffic Area Stabilization	8-11

8.04.9	Dust Control	8-12
8.04.10	Permanent Ground Cover	8-12
8.05	ESCP DESIGN	8-12
8.05.1	Base Map	8-12
8.05.2	Erosion and Sediment Control Using BMP's	8-13
8.05.3	Complete ESCP	8-13
8.05.3.A	ESCP Cover Sheet	8-14
8.05.3.B	ESCP Plan View Sheet(s)	8-14
8.05.3.C	ESCP Detail Sheet(s)	8-14
8.06	EROSION CONTROL CONSTRUCTION NOTES	8-14
8.07	CONSTRUCTION SEQUENCE	8-16
8.08	NARRATIVE	8-17
8.09	ESCP REVIEW AND APPROVAL	8.18

SECTION II – DRAFTING STANDARDS

9.00	DRAFTING STANDARDS	9-1
9.01	SURVEY AND TOPOGRAPHIC INFORMATION	9-1
9.02	PUBLIC IMPROVEMENT PROJECT PLAN REQUIREMENTS	9-1
9.02.1	Sheet Size/Margins	9-1
9.02.2	Line Width	9-2
9.02.3	Line Weight	9-2
9.02.4	Description and Detail Notes	9-2
9.02.5	Required Information	9-2
9.03	COVER SHEET	9-2
9.03.1	General Construction Notes	9-3
9.03.2	Symbol Legend	9-5
9.03.3	Vicinity Map	9-5
9.03.4	Site Map (Including Sheet Index)	9-5
9.03.5	Assessment Plat	9-6
9.04	PLAN AND PROFILE VIEW SHEETS	9-6
9.04.1	Plan View	9-7
9.04.1.A	Drawing Scale	9-7
9.04.1.B	Required Information	9-7
9.04.1.B.1	Match Lines	9-7

	9.04.1.B.2	Centerline and Stationing	9-8
	9.04.1.B.3	Existing and Proposed Right-of-Way and Easements	9-8
	9.04.1.B.4	Contour Lines	9-8
	9.04.1.B.5	Existing and Proposed Utilities	9-8
	9.04.1.B.6	Existing and Proposed Improvements	9-8
	9.04.1.B.6.a	Sewers	9-9
	9.04.1.B.6.b	Sidewalks	9-9
	9.04.1.B.6.c	Planter Strips	9-9
	9.04.1.B.6.d	Driveways	9-9
	9.04.1.B.6.e	ADA Ramps	9-9
	9.04.1.B.6.f	Curb and Gutter	9-9
	9.04.1.B.6.g	Pavement	9-9
	9.04.1.B.6.h	Trees	9-10
	9.04.1.B.7	Curb Return Data	9-10
	9.04.1.B.8	Horizontal Curve Data	9-10
	9.04.1.B.9	Construction Notes	9-10
	9.04.2	Profile View	9-11
	9.04.2.A	Drawing Scale	9-11
	9.04.2.B	Required Information	9-11
	9.04.2.B.1	Match Lines	9-11
	9.04.2.B.2	Centerline Stationing	9-12
	9.04.2.B.3	Existing Ground Profile	9-12
	9.04.2.B.4	Proposed TC or CL Profile, Elevations and Slopes	9-12
	9.04.2.B.5	Centerline Grade Break/Vertical Curve Data	9-12
	9.04.2.B.5.a	Grade Breaks	9-12
	9.04.2.B.5.b	Vertical Curves	9-12
	9.04.2.B.6	Existing and Proposed Utilities	9-13
	9.04.2.B.7	Existing and Proposed Improvements	9-13
	9.04.2.B.7.a	Sewers	9-13
	9.04.2.B.8	Backfill Requirements	9-13
9.05	CONSTRUCTION DETAIL SHEET(S)		9-14
	9.05.1	Drawing Scale	9-14
	9.05.2	Required Information	9-14
	9.05.3	Required Details	9-14
9.06	TRAFFIC PLAN SHEET(S)		9-15
	9.06.1	Drawing Scale	9-15
	9.06.2	Required Information	9-15
9.07	TRAFFIC DETAIL SHEET(S)		9-15
9.08	GRADING PLAN SHEET(S)		9-16
	9.08.1	Drawing Scale	9-16
	9.08.2	Required Information	9-16
9.09	EROSION AND SEDIMENT CONTROL PLAN SHEET(S)		9-16

10.00	ELECTRONIC ACCEPTANCE STANDARDS	10-1
--------------	--	-------------

10.01	PURPOSE	10-1
10.01.1	Accuracy	10-2
10.01.2	Consistency Between Electronic Copy and Hard Copy	10-2
10.01.3	Electronic As-built Drawing Set	10-2
10.01.4	Referenced Information	10-3
10.01.5	Drawing Objects (Entities)	10-3
10.01.6	Layering Conventions	10-4
10.01.7	Media	10-4
10.01.8	City Inventory Information and Definitions	10-5

SECTION III - PROCEDURES

11.00	PRE-DESIGN	11-1
--------------	-------------------	-------------

11.01	PURPOSE	11-1
11.02	JOB-SITE FIELD INVESTIGATION	11-1
11.03	ORDERING TESTS	11-1
11.04	UTILITY LOCATES	11-1
11.05	TOPOGRAPHOC NOTES	11-2
11.06	RESEARCH	11-2
11.07	PRE-DESIGN MEETING	11-3
11.08	SURVEY CONTROL	11-4

12.00	PUBLIC IMPROVEMENT PERMIT PROJECTS	12-1
--------------	---	-------------

12.01	PROCDEURES	12-1
12.02	PERMIT APPLICATION PROCESS	12-1
12.03	PERMIT AGREEMENT	12-2
12.03.1	Developer Obligations of Permit	12-3
12.03.2	Developer's Engineer Obligations of Permit	12-3

12.04	PERMIT DEPOSIT	12-4
12.04.1	Deposit Submittal and Calculations	12-4
12.04.2	City Costs Recovered From Deposit	12-4
12.05	PLANS AND SPECIFICATIONS SUBMITTAL	12-5
12.05.1	Submittal Requirements	12-5
12.05.2	Permits From Other Agencies	12-5
12.05.3	Review and Approval	12-6
12.06	OTHER REQUIREMENTS BEFORE PERMIT IS ISSUED	12-7
12.06.1	Submittal Requirements	12-7
12.06.2	Bond	12-7
12.06.3	Contractor's Insurance Certificates	12-8
12.06.4	Temporary Traffic Control Plan	12-8
12.06.5	Construction schedule	12-9
12.07	ENGINEER'S MANAGEMENT OF CONSTRUCTION	12-9
12.07.1	Inspection, Survey and Management of the Work	12-9
12.07.2	Non-Performance of Inspector or Engineer	12-10
12.08	ACCEPTANCE OF THE PROJECT	12-10

13.00	RESERVED FOR FUTURE USE	13.1
--------------	--------------------------------	-------------
