Project Purpose and Objectives

The established project purpose and objectives were developed in conjunction with the Springfield City Council and Planning Commission and approved as part of the Community Engagement Plan for the project.

The Purpose of the Development Code Update Project is to change the Springfield Development Code to support efficient, timely, and clear development review. The updated Development Code will support Springfield's economic development priorities and will honor Springfield's home town feel now and in the future.

The Project objectives are to:

1. Enable quick review of development applications.
2. Provide easy to understand code language presented in a clear and user-friendly format.
3. Provide a straight-forward processing path to development decisions.
4. Support/further economic development in all sectors.
5. Protect and enhance the beauty of our city to boost or stabilize property values, encourage investment, and improve the image of the community.
6. Comply with mandatory regulatory requirements including implementation of House Bill 2001.
7. Implement the City's adopted policies.
