

Springfield Police Advisory Committee
Annual Report

Next Steps and Discussion:

In order to conclude the SPAC annual report, the SPAC annual report subcommittee in partnership with entire SPAC has generated a list of recommendations for council's consideration as well as a short list of questions for discussion:

Recommendations:

- Based on the prior 18 months of community engagement with SPAC, oversee a public process for consideration and implementation of a police oversight commission or similar body
- Include existing SPAC committee members in selection process for new committee members and utilize city values/mission statement as part of criteria for evaluating applicants
- Ensure the planning and execution of the new chief hiring process includes extensive community engagement and input

Questions for consideration and discussion:

- Committee membership and SPAC role clarity
 - How does council see boards and commissions role in broader civic engagement? Can SPAC present to other committees as a form of community outreach/engagement?
