

Special Noise Permit Application Construction Activities

This is an application for a construction noise variance from the Springfield Municipal Code (SMC). You should apply for it if your project requires construction during hours prohibited by SMC 5.220 (6:00 pm to 7:00 am). Please fully complete the application and return it to the Development and Public Works front counter (SE Quad) or engineering@springfield-or.gov. The application must be submitted 30 days before the first date of noise activity noted on this application.

Development and Public Works (DPW) will review the application to determine the reasonableness of the request and any proposed mitigation measures. If the application is approved, you will be issued a permit specifying the date and times the permit covers, description of permitted noise activity, location where noise activity is permitted, and any conditions of approval, if any. Once signed by authorized City staff and conditions of approval noted, if any, this form will serve as your permit. If your permit application is denied or revoked, you may appeal to the City Council in writing according to SMC 5.220(8). Contact DPW if you wish to file an appeal.

Applicant Name _____ **Phone** _____

Email _____

Address _____ **City** _____ **State** _____ **ZIP** _____

Business Name (if applicable) _____

Associated Permit Number (if applicable) _____
