

## Linda Lane Update

### March 20, 2023

At the March 6, 2023, Springfield City Council meeting, the Council approved a conservation easement and final negotiations of deed restrictions for wetlands on the property adjacent to Linda Lane that was required to allow construction to move forward for the [Jasper Trunk Sanitary Sewer Extension Phase 3 Project](#) (P21065).

Specifically, the easement encompasses approximately 11.5 acres to provide permanent environmental protection for a portion of the wetlands located on the property. As for the remaining identified wetlands on the property, the Council will consider options in future meetings.

During their April 3, 2023 meeting, the Council will consider a resolution to initiate annexation of Tax Lot 18-02-04-00-01511. Approval of this resolution only initiates the process directing staff to submit the application to start planning review, public notice, and hold eventual public hearings.

The City Council agenda packet for the April 3, 2023 meeting will be published later next week. We will send another email with a link to the packet then.

**Forward this email to other community members** you know who may like to be informed about the **publicly owned property adjacent Linda Lane.**
