

If I Were Mayor

If I were mayor I would make Springfield a better place. Like clean up the city I would make it safe and I would make it beautiful .

First I would clean up the city by telling people to stop littering tell them that with this it could help are plant and I would fix the road cracks to.

Next I would make it safe tell people that no more people would have to leave because of a war that is happening and bring more peace in the community like we're in it together.

Last I would make it beautiful I would help to stop putting chemicals into the intermat and to plant more trees and flowers.

So I would have it looking good make it a peaceful place and have a nice intermat and that is what I would do if I were mayor.
