

42nd Street Overlay Project

225 Fifth Street
Springfield, OR 97477

See reverse for more details...

42nd Street Overlay International Paper to Marcola Rd.

We're making plans for pavement repair on a section of 42nd St. between International Paper and Marcola Rd.

For more information please contact:
Kristi Krueger, capital engineering manager
541.726.4584 or kkruieger@springfield-or.gov

What is being planned with the project?

A paving overlay will be applied to 42nd Street between International Paper and Marcola Rd. along with new striping and signing. A temporary traffic signal at the north ramp intersection is also being considered.

Why do the project?

This section of 42nd Street is past the point of being able to be maintained properly in its current condition. A 2" overlay will be applied to this section of 42nd St. to improve the travel surface of the street.

What is happening now?

Design work is underway.

What is the project schedule?

We expect the project to start in 2024 and be completed by the end of 2024. More details will be shared as we reach a final design plan. The latest project information can be found online at bit.ly/42overlay or by scanning the QR code with your smartphone.

What is being considered for the future?

Future improvements are being considered and will be determined once an analysis of the 42nd St. levee has been completed.
