

Linda Lane Update

June 13, 2023

At their April 3, 2023 regular meeting, the City Council passed a resolution that initiated the process directing staff to submit an annexation application to start planning review, public notice, and hold eventual public hearings for the annexation of the property adjacent to Linda Lane, specifically Tax Lot 18-02-04-00-01511.

The annexation application has been submitted for consideration by the City Council. However, due to the timing of the application submittal, public notice requirements and the City Council's summer recess, the annexation process of the property adjacent to Linda Lane will go before the City Council in early fall of this year.

We will send another update with details on how to attend when the specific City Council meeting date has been selected.

Forward this email to other community members you know who may like to be informed about the **publicly owned property adjacent Linda Lane.**
